Hakkımızda —— About Us

M4KEY OTOMOTİV İTHALAT İHRACAT SAN. Ve TİC. LTD. STİ. olarak, Tam kapasite ile çalışan bir işletmeyiz. Dünyada sektörümüzde var olan en son teknolojilere sahibiz.

Gelişen Teknoloji ve Bilgi Birikimi desteğinde, müşteri beklentilerini karşılamak ve alternatif ürünler sunmak 2003 yılından beri işimiz olmuştur.

Elektronik component hammaddedeki gelişmeler ve üretim hatlarımızdaki yüksek teknoloji ile müşteri beklentilerini karşılamakta, performans iyileştirici ve maliyet azaltıcı avantajlar sunmaktayız.

Özel ürünlerin tedarikçisi olmak, katma değerli ve faydalı ürünler üretmek, son teknolojiyi kullanmak tüm M4KEY ve GOLCAR çalışanlarının gelişim ve katkısı ile mümkün olabilmektedir.

M4KEY ve GOLDCAR çalışanlarıyla Sosyal Sorumluluk ve Çevre Duyarlılığı bilinci ile hareket ederek geleceğe güvenle bakmaktadır.

Firmamız ana ürün gruplarından; Direksiyon Kilidi Simulatoru , Can filter , ignittion simulator , immobilizer simulator, ecu simulatoru , otomotiv anahtarları , masaüstü test cihazları , obd , Acil Başlatma Obd Test Ekipmanları, Gateway, gibi ürünlerin üretimini yapmaktadır.

Firmamız tüm ürün ve hizmet süreçlerinde Toplam Kalite Yaklaşımı prensibini başarıyla benimsemiştir.

M4KEY AUTOMOTIVE IMPORT EXPORT IND. and TİC. LTD. STI. We are a business operating at full capacity.

We have the latest technologies available in our industry in the world.

With the support of Developing Technology and Knowledge, it has been our business since 2003 to meet customer expectations and offer alternative products.
With the developments in electronic component raw materials and the high technology in our production lines, we meet customer expectations and offer performance-improving and cost-reducing advantages.

It is carefully designed with the awareness of the value that the packaging adds to the product.
Being a supplier of special products, producing value-added and useful products and using the latest technology is possible with the development and contribution of all M4KEY and GOLDCAR employees.

M4KEY and GOLDCAR looks to the future with confidence by acting with the awareness of Social Responsibility and Environmental Awareness with its 20 employees.

Our company is one of the main product groups; It produces products such as Steering Lock Simulator, Can filter, ignittion simulator, immobilizer simulator, ecu simulator, automotive keys, desktop test equipment, obd, Emergency Start obd, gateway.
Our company has successfully adopted the Total Quality Approach principle in all product and service processes.

Vizyon&Misyon —— Vision & Mission

To be a global company that constantly develops itself with the value it gives to its employees and customers, and produces new, profitable and high quality products.

Ensuring customer satisfaction and loyalty
Developing and engaging our employees
Being a supplier of special products
Producing new and profitable products
Creating social and environmental benefits

In the Automotive Sector; To be the most preferred leading company with its product quality, customer satisfaction and service speed. To be a company that creates value for them and our employees as the first choice of our customers with our high product quality, wide product range, after-sales services and high business ethics.

Çalışanlarına ve müşterilerine verdiği değerle kendini sürekli geliştiren, yeni, kârlı ve kaliteli ürünler üreten bir dünya firması olmak.

Müşteri memnuniyetini ve bağlılığını sağlamak
Çalışanlarımızı geliştirmek ve katılımlarını sağlamak
Özel ürünlerin tedarikçisi olmak
Yeni ve karlı ürünler üretmek
Sosyal ve çevresel faydalar yaratmak

Otomotiv Sektöründe ; ürün kalitesi, müşteri memnuniyeti ve servis hızı ile en çok tercih edilen lider şirket olmaktır.

Yüksek ürün kalitemiz, geniş ürün yelpazemiz, satış sonrası hizmetlerimiz ve yüksek iş ahlakımız ile müşterilerimizin ilk tercihi olarak, onlar ve çalışanlarımız için değer yaratan bir şirket olmaktır.

Ar-ge ——— Research and Development

Otomotiv teknolojileri ve teknikleri alanındaki yenilikler takip edilir ve uygulanması sağlanır. Ar-Ge, M4KEY'ın devam eden gelişimine en üst düzeyde katkı sağlamak için yenilikçi çözümler üretir.

Maksimum seviyede üretim, etkili bilgi akışı ve işbirliği sağlayabilmek için iç: ve dış iş ortaklarıyla yakın ilişkiler ve iletişim kurar. Hızlı ve zamanında uygulamalar yapabilmek için etkili süreçler oluşturur.
Ar-Ge'de sürdürülebilir ürünler geliştirme hedefi, çevreye karşı olan sorumlulukla paralel olarak yürütülmektedir.

Innovations in automotive technologies and techniques are followed and implemented. R&D produces innovative solutions to contribute to the continued development of M4KEY at the highest level.

It establishes close relationships and communication with internal and external business partners in order to ensure maximum production, effective information flow and cooperation. It creates effective processes to make fast and timely applications.

The aim of developing sustainable products in R&D is carried out in parallel with the responsibility towards the environment.

Satış & Pazarlama

"Koşulsuz Müşteri Memnuniyeti"ni ilke edinmiş olan M4KEY, ürünlerin doğru tasarımı, geliştirilmesi amacıyla verdiği danışmanlık hizmetleri ve ürünlerin doğru kullanımı için verdiği eğitimleri ile her zaman müşterilerinin çözüm ortağıdır.

Müşterilerin özel gereksinimlerine dayanarak oluşturulan müşteriye özel ürünleri sunması; daha iyi ve etkinlik sağlayan esnek tasarımları geliştirmesi ve sürekli innovatif çalışmalar ortaya koyması M4KEY'ı öne çıkaran en önemli farklardır.

İhracat Yapılan Ülkeler

Hem OEM hem de kendi markalarımız ile ihracat yapmaktayız.

M4KEY olarak başta Avrupa ve Orta Doğu olmak üzere 68 ülkeye ihracatımız bulunmaktadır.

PSA Peugeot Citroen Opel 2011 and Up Steering Lock Emulator Simulator

Link https://goldcarkeys.com/product/psa-peugeot-citroen-opel-2011-and-up-steering-lock-emulator-simulator/

PSA Peugeot Citroen Opel 2011 and Up. Steering Lock Emulator Overview:
Device Emulates PSA ESCL Unit, compatible with PSA Cars With Electronic Steering Column Lock (ESCL), FT-CAN, 2011 And Up

PSA Peugeot Citroen Opel Emulator is Plug & Play , No Programming Required.

ELV Is A Self-occurring Mechanical Failure In The Steering Column Lock.
The Occurrence Of The Fault Does Not Depend On Any Fault.
In Case Of Malfunction, Even If There Is No Problem In The Vehicle Key, The Working Key Will Not Start The Vehicle Because The ELV Steering Column Lock Will Not Be Activated.

In This Case, A New ELV Steering Column Lock Must Be Installed In The Vehicle And Programmed Into The Vehicle.
Steering lock problem is one of the most frequent Problems in many cars including the Peugeot Citroen Starting System.
and when the steering lock is faulty, the car will start even if the customer has a 100% working key for it until you order a new steering lock for it from Peugeot Citroen agencies. BUT instead of spending hundreds of dollar for order a new OEM steering lock, we offer you this economic solution; the PSA Peugeot Citroen Emulator which needs NO PROGRAMMING, just plug and start!

This emulator replaces the faulty Peugeot Citroen ESCL Units, it is compatible with PSA Cars With Electronic Steering Column Lock (ESCL), FT-CAN, 2011 And Up

PSA Peugeot Citroen Opel Steering Lock Emulator Installtion on Car :
Turn off the ignition.
Plug the ESL connector into the our emulator.
The SCL works only when it receives open and close signal.
Push the start button and the green led lights. If the red led blinks, there is an error that has to be erased by any diagnostic tool.

- BYPASS -

Product Overview:

- To use FIAT Bypass – Emergency Start Tool you just need to connect it to the OBD2 socket in the car.
- The tool bypasses the original immobiliser signal and allows you to start the car right after plugging it in.

Usage Requirements:

- Car has to be equipped with mechanical key.
- Car has to be equipped with original parts.
- The device will work only in case of a lost key.
- If the car is equipped with an SGW Module (some models starting
- from 2017 year), you need to use 2018+ FCA Bypass Adapter in order
- to bypass Security Gateway Module

- Kia Sportage
- Kia Carnival

M4KEY For Hyundai – Kia Steering Column Lock Emulator Overview:

- ELV is a self-occurring mechanical failure in the steering column lock.
- The occurrence of this failure is not caused by any fault.
- In case of malfunction, even if there is no problem in the vehicle key, ordinarily functioning key will not start the vehicle because the ELV steering column lock will not be activated.
- In this case, a new ELV steering column lock must be installed in the vehicle and programmed into the vehicle.
- Steering lock problem is one among the foremost frequent problems in Hyundai – Kia starting system.
- Hyundai – Kia dealer needs to order a new steering lock and program it which is just too costly and time-consuming.
- Instead, use our Electronic Steering Lock Hyundai – Kia Emulator which will fix your steering lock malfunction error for good.
- The Hyundai -Kia ESL ELV Universal Steering Lock Emulator will always bypass Hyundai – Kia ELV.
- No coding required, simply connect it. It'll fix your Hyundai – Kia ESL fail.
- Plug and Play No Adaptation Needed!
- You can easily repair ELV steering column lock, which is one of the most common problems in Hyundai – Kia vehicles.

M4KEY For Hyundai / Kia Steering Column Lock Emulator Installation:

- First, unplug the ELV wire from the car steering lock unit.
- If vehicle steering lock is in "lock" mode, steering lock must be away from the car.
- Connect our M4KEY ELV emulator to the car and start the car.

1 YEAR WARRANTY

It is very important that the vehicle's original steering lock is working. You cannot use the emulator/simulator if the original steering lock is not working.

Aracın orijinal direksiyon kilidinin çalışıyor olması çok önemlidir. Orijinal direksiyon kilidi çalışmıyorsa emülatörü / simülatörü kullanamazsınız.

Installation:

- Plug the program cable into the program input at the bottom of the emulator
- Connect the red wire to the 16 pin of the obd input of the vehicle.
- Connect the black wire to the 4 or 5 pin of the obd input of the vehicle.
- Connect the green wire to the vehicle's original steering lock data terminal
- Insert the vehicle key into the slot (the green LED of the emulator will turn red and flash)
- Programming has fınıshed and the car steering lock emulator ıs ready to use
- Remove the programming cable from the emulator
- Remove the socket from the vehicle's original steering wheel lock
- Directly plug the socket of the vehicle into the emulator
- Important : please do not forget to remove completely the original steering lock from the car for your safety

Kurulum:

- Program kablosunu öykünücünün altındaki program girişine takın
- Kırmızı kabloyu aracın obd girişinin 16 pinine bağlayın.
- Siyah kabloyu aracın obd girişinin 4 veya 5 pinine bağlayın.
- Yeşil kabloyu aracın orijinal direksiyon kilidi veri terminaline bağlayın
- Araç anahtarını yuvaya takın (emülatörün yeşil LED'i kırmızıya döner ve yanıp söner)
- Programlama bitti ve araba direksiyon kilidi emülatörü kullanıma hazır
- Programlama kablosunu öykünücüden çıkarın
- Soketi aracın orijinal direksiyon kilidinden çıkarın
- Aracın soketini doğrudan emülatöre takın
- Önemli : Lütfen güvenliğiniz için orijinal direksiyon kilidini araçtan tamamen çıkarmayı unutmayınız.

GK-7000

BMW FORCE TOOL IS USED TO TURN ON CIRCUIT TO DISABLE ALARM TO ACCESS TRUNK. IT CAN HELP YOU EXTRACT ISN

BMW FORCE ARACI, DEVRE DIŞI BIRAKMAK İÇİN DEVREYİ AÇMAK İÇİN KULLANILIYOR BAGAJA ERİŞMEK İÇİN ALARM. ÇIKARMAYA YARDIMCI OLABİLİR

BMW FORCE TOOL is the first tool to work with CAS4 FEM BDC and NEW "G" Systems. NO COMPUTER REQUIRED BMW FORCE TOOL works on all BMW based Systems Including Rolls Royce. Able to turn on circuit 15 safely works on BMW electric Vehicles also.

BMW FORCE TOOL, CAS4 FEM BDC ve YENİ "G" Sistemleri ile çalışan ilk araçtır. BİLGİSAYAR GEREKLİ DEĞİL BMW FORCE TOOL, aşağıdakiler dahil tüm BMW tabanlı Sistemlerde çalışır Rolls Royce. Devre 15'i güvenle açabilme, BMW elektrikli Araçlarında da çalışır.

Acil Başlatma 2020 Fiat –Alfa Romeo –Lancia - Abarth
Emergency Start 2020 Fiat –Alfa Romeo – Lancia – Abarth

GK-7001

• The fastest procedure - car is ready to start right after plugging
• in Intelligent recognition of the ECU and car
• Original CarLabImmo tool - you can trust it won't let you down

• To use Fiat Bypass you just need to connect it to the OBD2 socket in the car.
• The tool bypasses the original immobiliser signal and
  allows you to start the car right after plugging it in.

• En hızlı prosedür - araba, fişe taktıktan hemen sonra çalışmaya hazırdır
• ECU ve arabanın akıllı tanınmasında
• Orijinal CarLabImmo aracı - sizi yarı yolda bırakmayacağına güvenebilirsiniz
• Fiat Bypass'ı kullanmak için arabadaki OBD2 soketine bağlamanız yeterlidir.
• Araç, orijinal immobilizer sinyalini atlar ve
  Fişi prize taktıktan hemen sonra aracı çalıştırmanızı sağlar.

2018+ FCA Security Gateway Module Bypass

Security Gateway Module (SGW) Adapter for FIAT Bypass
This 12+8pin SGW Adapter allows to bypass the Security Gateway
Module (SGW) commonly found in Fiat Group vehicles since 2017.

1) Use together with Fiat Bypass
 When used together with Fiat Bypass, it enables the emergency start
 in models equipped with the SGW module.

For full list of cars supported by Fiat Bypass

2018+ Alfa Romeo Giulia	2018-2021 Jeep Compass
2018+ Alfa Romeo Stelvio	2018-2021 Jeep Grand Cherokee

GK-3001

Wakeup Ignition Bypass OBD Socket

Using this tool it is possible to force the ignition on (Terminal 15) in VAG vehicles from the OBD diagnostic port.
This will allow you to wake up the control units in the vehicle and establish OBD communication without having a key.
It is fitted with an OBD male port on one end and a female port on the other end which enables you to use the diagnostic port in conjunction with this product.
The K-Line, L-Line and CAN connections pass through the device and are available for communication.
A switch is fitted to toggle the ignition ON/OFF and LED's to confirm the presence of power and ignition status.

GK-3002

VAG UDS Dashboard Bench Cable

For all UDS system
Volkswagen
Skoda
Seat
Dashboards key programming
(include Boot Probe)
Can be used with all devices!
(AVDI, ZEDFULL, VVDI2, KEY MASTER, SUPER VAG, AUTEL etc..)
